in/ariful-islam-fahim/

## PROFESSIONAL SUMMARY

Final-year Textile Engineering student specializing in Apparel Manufacturing with a CGPA of **3.90/4.00** and four Vice Chancellor's Awards for academic excellence. Experienced in textile testing, wet processing fundamentals, and industrial manufacturing exposure through factory observation and academic projects. Interested in internship or trainee opportunities within apparel manufacturing, production operations, quality assurance, or textile processing environments.

## EDUCATION

**B.Sc. in Textile Sciences and Engineering** 10/2022 – 07/2026 (Expected)
*Green University of Bangladesh* Dhaka, Bangladesh
- Major: Apparel Manufacturing
- CGPA: **3.90/4.00**
- Academic Honors: **Vice Chancellor's Award (x4, 2023-2025)**, **Dean's Award (x1, 2025)**

**Higher Secondary Certificate (HSC)** 2019 – 2021 | Dhaka, Bangladesh
*Dr. Mahbubur Rahman Mollah College*
- Background: Science
- Grade: 4.92/5.00

**Secondary School Certificate (SSC)** 2017 – 2019 | Rupganj, Narayanganj
*Hazi Ayet Ali Bhuiyan High School*
- Background: Science
- Grade: 4.67/5.00

## ACADEMIC PROJECTS

**pH-Sensitive Smart Textile Using Natural Dye** 2025
*Coursework Lab Project — Wet Processing II Lab*
- Developed a cotton-based chromatic fabric using anthocyanin extract from roselle with reversible pH-sensitive colour response
- Applied mordant concentration and thermal processing optimization to improve wash-fastness performance
- Conducted colour-response testing across acidic, neutral, and alkaline environments
- Prepared full experimental documentation including methodology, observations, and analysis

**Sustainable Fashion Awareness Survey Project,** *Group Research Activity* 2025
- Collaborated in a student survey project examining sustainable fashion awareness and consumer behavior trends
- Collected and organized 130+ survey responses for analysis and reporting
- Contributed to the report preparation and presentation of findings

## LEADERSHIP & ACTIVITIES

**Class Representative,** *Green University of Bangladesh* 2022 – Present | Dhaka, Bangladesh
- Coordinated communication between faculty members and a 35+ student cohort
- Assisted in academic scheduling coordination and class-related issue communication

- Supported teamwork and coordination across multiple academic activities

**Workshops & Seminar Participation**
- Smart Resume for Fresh Graduates Workshop — Wadhwani Foundation (2026)
- Seminar on All-Over Printing Design and Development — Green University of Bangladesh (2022)

**Industry Exhibition Exposure**
- Attended Textech International Exhibition (ICCB, Dhaka) across multiple years (2022–2025), observing advancements in textile machinery, knit manufacturing technologies, and RMG production systems.

## TECHNICAL SKILLS

**Textile Testing & Quality Control**
- GSM testing
- Tensile & elongation testing
- Fiber identification
- Fabric evaluation
- Defect identification

**Production & Apparel Operations**
- Apparel manufacturing basics
- Quality control procedures
- Production workflow observation
- AQL defect classification

**Software & Digital Skills**
- Microsoft Office (Excel, Word, PowerPoint)
- AutoCAD (2D Drafting)
- ArahWeave (basic familiarity)
- Canva

## CERTIFICATES

- Employability Skills Program — Wadhwani Foundation (2026)
- Computer Applications Certification — ICA Bangladesh (2021)

## LANGUAGES

**Bengali**
Native / Bilingual

**English**
Professional Working Proficiency
